

Information about our rowing club

Our core type of sport is rowing, which is a joint-friendly strength-endurance sport for humans of every age. Mass sport or competitive sports, in a team or single- everyone can follow their preferences. Trips on national and international waters ensure experiences, which will never be forgotten. Social events are very important elements of our rowing club.

We moved into our boathouse near the Europakanal after the completion of the Main-Donau channel in 1976. It is already the fourth domicile of the club's history. The club's restaurant is leased and is open for everyone.

The rowing club is charitable and is entirely administered by volunteer work. At the moment, the club has nearly 400 members and more than 80 boats. The care and instruction in rowing is done by professional trainers and experienced members.

A schedule of the club's activities is prepared at the beginning of every summer- and winter term. For people interested in rowing, we offer taster courses in early summer. In winter, ergometer rowing, gymnastics and fitness training can be done in the club's own gym. We also provide a decent fitness studio of 70 qm.

Boats and boathouses represent a considerable value. For their preservation and the realization of our events, active members (age: 14-70 years) are requested to perform six working hours per year, or respectively pay a surrogate-payment of 15 € (12 €) per hour. Opportunities to complete the working hours will be provided in time.

Monthly price of the membership fees:

Full members (active members above 18 years)	26 €
Youth (14-17 years) (pupils, students without income and apprentices/trainees are valid after verification as youth, but only up to 27 years)	14 €
Children rowing (up to 13 years)	12 €
Children not rowing (up to 13 years) (only for children of members, no admission charge, no family discount)	15 €/ year
Supporting members (passive)	10 €
Foreign members / Foreign youth members (residence has to be 30km min. away from Erlangen, only occasional participation in sports facilities)	10 €/ 6 €
Owner of the "Erlangen Pass": 50% discount after verification, no admission charge	

The payment of the fees is made by direct debit in advance by half year-installments in February and July.

Families are entitled to discount: A single parent or two parents with children (up to 25 years) count as a family. Payment of one bank account and a joint address is required. If a member pays the full-member subscription, the second member pays 50%, the third and further members pay 25% of the respective subscription (ordered according to age). This regulation does not apply for Supporting and Foreign members. Please name family members on your application for admission.

On admission, an admission charge to the amount of 6 month will be requested. This can be split by request onto 2 years. The admission will be halved, if a membership with a club recognized by the DRV existed in the 12 months before.

For persons just staying in Erlangen temporarily, a limited membership of 6 months is possible. Additional to this, an administration fee of 30 € must be paid.

After handing in the application for admission and the privacy policy, you will get a confirmation about the preliminary membership of the club and a summary of the data stored. You can instantly take part in our sports facilities and your insurance is covered by the BLSV. The executive board will decide about your membership application on the next date possible. You will be informed about your successful admission.

The exit of the club is possible until June 30th or December 31th and must be announced one month before in written form.

Information of club proceedings and events are announced every month via electronic mail "RVE aktuell" and on our homepage.
